

It is not a salary. It is a charity donation. Nevada has about the same need for a Lieutenant Governor as for a Board of Harbor Commissioners. But our high pressure constitution of 1864, compels the election of such an officer, who has always proven more of an expensive nuisance than a luxury to the people of the State. The constitution requires no other duty from him than presiding over the Senate when it is in session, nor authorizes payment for any other service. It has generally been the custom, however, for the legislature to make him ex-officio something at a small salary, which would enable him to eke out a living during the two years between sessions. This is the first instance, however, where an actual salary has been voted him. It is an absolute donation, pure and simple, for there is nothing he can do, that could not as well be done by some of the State officers without expense to the government. It will be impossible for him to do \$20 worth of service during his entire term, which could not be done without cost, if there was no such office as Lieutenant Governor. The \$7,300 he will receive during his term would far more than defray the expense of a constitutional convention which would unquestionably abolish the office and cut off other expenses, amounting in a year to twice the expense not only of holding the convention, but of a special election submitting the matter to the people, if the next legislature should choose to call one instead of waiting until the next general election for the vote to be taken.

The *Times-Review* was also mistaken when it stated that the present Lieutenant-Governor was a non-resident of the State when he was appointed Attorney-General by Governor Sadler, who promoted him from his private secretaryship at the death of R. M. Beatty. When he was appointed private secretary, however, he was packing up his small belongings and was about to return to San Jose, from whence he came, and of which place he presumably claimed citizenship. But that makes no difference. The fleeing from the people of the sum of \$7,300 for the oldest resident of the State would be as infamous as for the benefit of a briefless lawyer, who doubtless would have remained here if he could have made a living from his practice. We agree, however, with the *Times-Review* in its opinion that "seventy-three hundred dollars is too much for the people of Nevada to pay for the pleasure of his company for the next four years. He comes too high."

The Governor is in receipt of a letter from Mr. Kappler, Senator Stewart's private secretary, in which he states that the 5,000,000 acre arid land grant clause offered by Senator Stewart in the General Appropriation Bill was objected to by Senator Allison and ruled out by the Chair. This will send it over until the next session. This is the bill which was to have passed within ten days—or ten minutes—we forget which, after the grand old man's return to the Senate. It will be sent over from session to session until the next Nevada Senatorial election, when it will be dated for passage in the first week of the next session of Congress. The war claim bill has become a superannuated chestnut, and the arid land grant has been devised to take its place. In the language of *Puck*, "What fools we mortals be."

There are strong indications that New York Democratic bosses will be ruled out of the councils of the genuine Democracy of the nation. Colonel Bryan has declined an invitation from Perry Belmont to the banquet of the Democratic Club of New York, and Chairman Jones of the Democratic National Committee asks the New York Democracy what stand it will take in 1900. The present local leaders of the New York Democracy are bolters from the Chicago convention in 1896, and although they have succeeded in foisting themselves upon the party, the rank and file are not in sympathy with their gold standard and general plutocratic policy. They must get rid of their bosses or the Empire State will cut little figure in Democratic politics in 1900.

The *Appeal* says that Grant and Burns are responsible for the deadlock in the California legislature. Not so. It is the members themselves who are responsible. The probability is that the legislators who are voting for those candidates are so bound by bribes or other corrupt conditions, that they dare not desert their men. If a majority of the two houses had been untrammelled by corrupt obligations, there would have been a Senator elected a month ago—and it would have been neither Grant nor Burns.

The *Golconda News* made a big mistake when it omitted the *Times-Review* from the list of the fearless and independent journals in Nevada. There is no newspaper in the State that stands for the right more sturdily and ceaselessly than the *Tacoma* paper; nor one that more ably advocates the rights of the people, as against the powerful corporation which holds them in political and financial servitude.

The Cuban bloodhounds, which were used for hunting slaves by the Spaniards and were imported into Jamaica, were not bloodhounds at all, but a cross between the mastiff and bulldog, or perhaps the "dogue" of Bordeaux. They were brindled, prick eared, and doubtless horribly savage. They were, however, used as "police," and like the bloodhounds on the border, were maintained in every parish in Jamaica, where it was the duty of the churchwardens to keep them at the expense of the community.

Some of these dogs were kept in London during the early days of the zoological gardens. The stories of their ferocity are probably not exaggerated, though Lord Balcarras, who imported 200 of them into Jamaica to aid in subduing the maroons, never used them. He frightened the negroes into submission by circulating the stories current about the dogs.—*London Spectator*

effort to raise a certain amount of money which is turned into the general funds of the Army for extending their operations at home, and in their foreign missions.
One of the chief features of the week is for those who participate to deny themselves of some luxury, and in many cases even necessities are dispensed with for a few days at least, and the money thus saved is turned over to the fund. It is nothing uncommon for the officers and soldiers during this week to abstain from meat, sugar, butter, tea, coffee, etc.
The effort is not alone confined to the homes of the Army people, but they get as many of their friends as possible to join them.
The dates of the coming effort are from March 19th to 26th inclusive.
Each year the effort has been taken hold of with increased zeal and enthusiasm, until we find by consulting the balance sheets of the organization that in 1898 \$400,000 were raised throughout the world as a result of this annual effort.
In a few days this city will be flooded with many unique methods of advertising and collecting. One special feature this year is what Commander Booth Tucker calls "the million cent fund." One million people are to be asked for one cent each, which in itself will form quite a nucleus upon which to build.
It is to be hoped that the Army's appeal will meet with a prompt response from the citizens of Reno. The Salvation army fed 100,000 of our poor at Christmas; they cared for the homeless during the terrible blizzard of February, concerning which we quote the following from the New York Herald of February 13th: "A noble example to other charitable institutions has been set by the Salvation Army, which has thrown open several of its buildings to serve as temporary refuges for the homeless poor, and has made arrangements for the distribution of fuel and provisions."
Now they appeal to us to reimburse their almost empty coffers. Shall we not render them the assistance they so justly merit?
Quo Warranto Proceedings Instituted.
A proceeding in quo warranto was yesterday instituted in the Supreme Court of the State by R. S. Osburn, relator, against H. H. Beck, F. K. Hymers and George H. Frazer, Commissioners of Washoe county, defendants. The complaint in substance charges the defendants with usurping the office and duties, as County Commissioners, of town council for the city of Reno, to which office and duties R. S. Osburn, Richard Ryland, John Michael, W. H. Noyes and N. W. Roff were elected on the eighth day of November last.
The object of the proceeding, it is presumed, is to test the validity of the act passed by the legislature at its late session repealing the city incorporation act. The questions involved are chiefly questions of law. The facts should be admitted and the law questions disposed of as speedily as possible, in order that the people may know whether they live in a town or in a city, and to settle at once the business interests involved.
The Ravages of Grip.
That modern scourge, the Grip, poisons the air with its fatal germs, so that no home is safe from its ravages, but multitudes have found a sure protection against this dangerous malady in Dr. King's New Discovery. When you feel a soreness in your bones and muscles, have chills and fever, with sore throat, pain in the back of the head, catarrhal symptoms and a stubborn cough you may know you have the Grip, and that you need Dr. King's New Discovery. It will promptly cure the worst cough, heal the inflamed membranes, kill the disease germs and prevent the dreaded after effects of the malady. Price 50c, and \$1.00. Money back if not cured. A trial bottle free at S. J. Hodgkinson's Drug Store.
Taxed the Traveler.
An itinerant merchant whose outfit travels on wheels arrived in town some days ago. Sheriff Quirk yesterday told him he would have to pay his taxes just like any other store keeper. After some demur the peddler offered to pay taxes on a valuation of \$25, but the sheriff declined the offer and had the outfit appraised by some local experts who placed on it a valuation of \$1905. The tax on this amounted to \$85 25 and the Sheriff collected a poll-tax from the merchant and his assistant bringing the total to \$71 25. This with a \$25 license fee brought the total collection to \$96 25, which was a fair haul considering the hard times—Virginia Report.
The "News" Wonders.
Senator Jones, with his usual acuteness, finally consented to vote for the peace treaty after having entered into an agreement whereby the Administration promised him that if Philippine sugar interfered with his beet sugar interests in California they would put a tariff on sugar. Wonder if it will interfere with Jones' beet sugar interests in Nevada?—Golconda News.

BASKET BALL.
A Game With Berkeley to come off Soon.
Yesterday was chosen the team of fair young girls from the University of Nevada who are to contend with a similar team of co eds from the University of California. It was feared by many that after a team was chosen from the many candidates it would be difficult to secure a second team to give the first one practice, but this was not the case as a full second team was at the regular practice in the gymnasium last evening, and never before was so much genuine enthusiasm manifested. All are confident that the girls will score a victory and cover themselves with athletic glory.
Arrangements have been made with the Berkeley team to play a game in San Francisco sometime during the next four weeks. As yet the date has not been decided upon. The regular team chosen is as follows: Home Forward, Stella M. Luascott, left forward, O. Bernice Worland; right forward, Winnie Stroosider; touch center, Frances Kerby; home guard, Ethel Peckham; left guard, Ethel Sparks; right guard, Louise Ward.
Substitutes—Myrtle Montrose, Lillian Marette, Nella Parish and Dora Hill.
Basket ball committee—Ada Edwards (coach), Louise Ward (captain), Gene Arnot, Maud Nash and Elizabeth Stubbe.
In Hard Luck.
The Lyon County Times says: A letter was received at this office this week from Ruel Lothrop, who wrote from Seattle, which gives rather a blue aspect to the Klondike immigration parties. He and Charles Bovard and Frank Carroll left Seattle and went on to Victoria. They state that there is no show for an American to get into the Atlin country. The law has been so changed that an American must declare his intentions to become a British subject and wait three years before he can take up a claim in that country, or even work on a claim. Bovard and Freeman, who had claims in Atlin, or Pine Creek, did not have the claims recorded before the new law went into effect, and have consequently lost their claims, which were very rich ones. Frank Carroll and Charles Bovard passed through on the train yesterday morning returning to Mason Valley, and report that Ruel Lothrop returned with them as far as San Francisco. If such laws as these have been made by the Canadians there is liable to be considerable trouble in that country, and it is about time to shoo all the foreigners out of this country.
Discovered by Woman.
Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night, and two bottles, has absolutely cured. Her name is Mrs. Luther Lutz. Thus writes H. O. Hamnick & Co of Shelby N. C. Trial bottles free at S. J. Hodgkinson's Drug Store. Regular size 50 cents and \$1.00. Every bottle guaranteed.
Not a Very Good Opinion.
Nearly all the members of the late legislature have arrived home, but owing to the imperfect means of communication with remote counties, no news of the various lynchings has been received—Virginia Report.
The editor of the Report was an officer of the late legislature and had an excellent opportunity for judging the qualifications and acts of the members. While the JOURNAL had no exalted opinion of the honesty or capacity of the majority of that body, it did not anticipate such direful results of their perfidy as is predicted by the Comstock editor who so tersely sizes up their deservings.

Tight Lacing.
The Minnesota legislature is considering a bill to prevent women from injuring their health by tight lacing. It was referred to the committee on agriculture.—Exchange.
It might very properly be entitled an anti-cloth bill.

Carl A. Leonard Joins the Great Army of Benedicts.
Carl A. Leonard, familiarly known as "Shorty," the well known and popular Southern Pacific conductor on the division between Sacramento and Wadsworth, was quietly married to Mrs. Minnie Le Bassie of Sacramento at the Riverside Hotel last evening. The Rev. F. V. Jones of the Congregational Church read the marriage service, and Frank J. Young and George Cheek acted as witnesses to the ceremony.
The happy couple will leave this morning for Salt Lake City, where they will spend their honeymoon. From Salt Lake they will return to Sacramento, their future home. The JOURNAL wishes them a long and happy life—all sunshine and no showers.
Silver Night Schools.
The gold-bug papers in Nevada admonish the poor deluded silver men here that the silver question is not thought of in the east, and that they are wasting their time trying to resuscitate a dead issue. The following looks as though our esteemed home contemporaries may be talking through their hats.
George Burr Smith is organizing the First Congressional district of Illinois for the campaign of 1900. Financial night schools and home circle clubs are organized in every precinct. The money question is briefly explained and the various reforms advocated in the interest of labor are carefully studied.
The listeners are appealed to not on the grounds of self interest, but from a Christian spirit of love to fellow men who themselves are more than crushed by the present industrial and financial system. The night school department is self supporting, and organizers who devote their entire time to the work receive the regular union scale of wages. A book and literary exchange is established in connection with each school, and is supported at a small cost to members.
